

Drive less, pay less

With Snapshot, your safe driving could help you get a lower monthly rate.

By driving less often and more safely, you could reduce your payments by up to 30 percent in 30 days.

When you enroll your vehicle in Snapshot, we'll send you a device that easily plugs in under your car's dashboard. Drive safely, track your driving and discount online, set your personalized rate, and start saving, only with Progressive.

**With Snapshot,
it pays to
drive safely**

Introducing SnapshotSM.
A simple way to save on your insurance.

PROGRESSIVE

Safe drivers could save more

Save the most with SnapshotSM when you:

- › brake with care
- › drive fewer miles
- › limit driving during rush hour and from midnight to 4:00 a.m.

Easy installation, convenient recording

Big savings come in small packages. The Snapshot device plugs in easily below your dashboard and submits data wirelessly. We automatically calculate your potential discount based on your individual driving habits, and you can access your data anytime through our secure site.

Plug in and forget

The choice is yours with Snapshot. Once you install the device and begin driving, sit back and see if you could save, or use our online tools to track your driving and personalized rate at progressiveagent.com. You can compare your data to other participants' and use Snapshot's real-time feedback to adjust your driving and maximize your potential savings.
